WATAN INVESTMENT & SECURITIES

Authorized and Regulated by the Capital Market Authority, Saudi Joint Stock Company with a Capital of SR 270 Million.

Watan Securities

Watan Investment & Securities (Watan) is authorized and regulated by the Capital Market Authority (CMA) to provide Securities products and services in the Kingdom of Saudi Arabia. In addition to Watan's internal resources and expertise, it has partnered with the leading regional and international data and information suppliers to provide superior services to clients.

At Watan we look at investments as an art. Our creativity is based on being able to listen to our clients' objectives, understand their needs and provide a tailored investment strategy. Our comprehensive products and services provide investment diversification risk parameters to meet clients' risk tolerance.

accessed through a
variety of different channels:

Centers
Our Centers provide clients with a professional environment where they can view market data, use Watan's trading facilities or meet with other clients.

Our Centers are located in Riyadh, Jeddah, and Al Ahsaa

Call Center
Our Call Center provides a 24-hour service through our Interactive Voice Response (IVR) system.

We handle customer inquiries, provide information on products and services, balance inquiries, execute transactions and provide portfolio appraisal, account statements and many other

- **On-line Portal**

An e-trading platform which clients can access from anywhere in the world through an internet connection and conduct securities transaction in local and international markets. The platform offers streaming stock prices, in-depth transaction information, historical performance and other relevant tools required to make sound trading decisions.

- **Mobile Phone Applications**

For the client who is always on the go, Watan offers an e-trade mobile phone application that requires no more than an internet connection. The platform is a Java® based application that is compatible with most of today's mobile phones and provides stock trading functions and pricing.

Economic and Equity Research

We have qualified and experienced Investment professionals who provide our customers with various investment strategies, economic & equity research and quality market information.

A daily briefing that entails equity and economic analysis is provided by email/fax to our clients. The brief is comprised of simple charts with to-the-point investment and market analysis.

Structured Products

Institutional and private investors can take advantage of Watan's new investment opportunities not open to them in the past, while taking calculated risks, preserving the value of their investment and refining the allocation of assets. We offer over 20 equity structured products such as convertible, reverse convertibles, and structured indexes.

Advisory Portfolio Management

An experienced advisory team of investment professionals offer clients tailor made investment solutions.

Your portfolio will be monitored by an Investment Manager to ensure it stays balanced and in line with your pre-agreed investment goals and risk tolerance.

Suggested changes will be discussed with you and regular valuations and reviews of your portfolio will be conducted.

IPO/Rights Issue Management Services

We participate in new Initial Public Offerings in the GCC and International markets as well as in Saudi Arabia.

Our services are offered through a team of dedicated professionals with years of project management experience.

We provide service continuity from inception to uploading the share registry at Tadawul.
